Questions & Answers About the Discount Rate

Q Who is eligible for this rate?

Any residential heating customer who can provide proof that the customer or a member of the customer's household is currently enrolled in at least one of the thirteen programs listed on the other side.

Fuel Assistance recipients will be enrolled automatically.

Q How long will the discount last?

Enrolled customers will be billed at the discount rate for one year from the date of enrollment.

Q Is this a discount off the entire bill?

No. The discount applies to the Gas Delivery Charge. Your bill also includes a Gas Supply Charge, which is the cost of natural gas. This cost is passed on directly to all customers at the price we pay to our suppliers.

Q How much can I expect to save?

Savings will vary by customer because the amount of the Gas Delivery Charge, to which the discount applies, varies based on individual gas use. We expect customers will typically save about \$200 per year.
